Enlist the Tamarack Aire Force today and breathe a healthy sigh of relief!

Perfect BALANCE

Airetrak™

Patented
UL Listed

Set it and FORGET IT!

The Tamarack Airetrak™ control will earn Energy Star points, meet ASHRAE 62.2 standards and improve indoor air quality.

The Airetrak™ is used in lieu of a regular wall switch for the bath fan. It sets the fan to operate intermittently throughout the day at variable speeds and full speed when you need it.

The Airetrak™ CD needs no programming. Runs constantly at the selected speed.

Take CONTROL of ASHRAE 62.2

Airetrak™ 62.2

Improve your homes INDOOR AIR QUALITY!

Your existing wall switch provides full air flow capacity of your new or existing bath fan. By matching one of our Airetrak™ 62.2 fan controls with the bath fan, you can easily convert that fan into an economical ventilation system.

Meet ASHRAE 62.2 REQUIREMENTS!

The Airetrak™ 62.2 fan control will allow your new or existing bath fan to run continuously on a low speed. Installing the Airetrak™ 62.2 fan control on your standard wall switch will give you, as needed, full air flow or continuous low air flow.

Advantage

One Control Does It All!

Meet the Airetrak™ Advantage, the newest Inductee into the Tamarack Aire Force.

The Airetrak™ Advantage replaces regular wall switches for both the bath fan and light. It sets the fan to operate intermittently or continuously throughout the day at variable speeds and full speed when you need it.

The Airetrak™ Advantage is simple to install, and easy to program.

Features a full function 24 hour clock display with independent fan and fan light control. Can switch up to 4.5 amps and has a field replaceable fuse. Choose from a wide range of programming capabilities. Your program is maintained in the event of a power outage and carries a 1 Year Warranty.
