

ALL the comforts of HOME

Variable Speed Control

Complete infra-red remote control unit allows fan speed adjustment up to 30 feet. Silver recall button allows view of current setting. LEDs glow softly in the dark for easy location and is equipped with power failure memory.

Enjoy the comfort and benefit of a well ventilated home while reducing your ENERGY COSTS and CARBON FOOTPRINT!

The **Evergreen** whole house fan draws cool air into the home and pushes it out through the attic vents. It comes complete with a finished grille for the interior and a convenient VARIABLE SPEED HAND HELD REMOTE CONTROL.

The Evergreen installs easily on a 16" or 24" on-center attic floor joist. It is maintenance free and comes with a 90 day limited factory warranty.

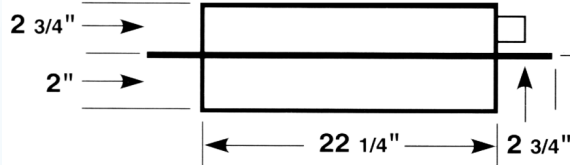

The Evergreen moves 1,450 cubic feet of air per minute. "It's a Breeze"
