Tamarack Technologies introduces the

WHOLE HOUSE WINDOW FILTER

Replaceable Filter Element

Screen baffle allows fresh filtered air to enter and keeps out rain, snow and wind.

Expands from 20-1/4" to 36-1/2" Wide

The United States Consumer Product Safety Commission has recommended several steps to help prevent injury:

- Do not depend on filters or screens to keep children from falling out of windows
- Whenever possible open windows from the top – not the bottom
- Keep furniture away from windows to discourage children from climbing near windows
