

The Dragon

Standard Features

- Manufactured from high grade pressed galvanized steel, with baked enamel coating.
- Removable top for easy access to motor for cleaning or inspection.
- Large grille opening for easy passing of lint and other potentially clogging materials.
- Supplied with a prewired junction box.
- Backward curved centrifugal impeller.
- Factory matched to an external rotor motor and dynamically balanced to eliminate vibration.
- Totally enclosed permanent split capacitor start and run external rotor motor.
- 120V 60Hz (single phase) electrical connection.
- Permanently sealed, self-lubricating precision ball bearings
- Safety Thermal Overload Protection Cut-Out (Automatic Reset Type).
- All Models are suitable for working airstreams up to 140° F

Dimensions (In Inches):

Model	A	A1	B	B1	C	C1	C2	D	X	X1	Y	Y1
