

TAMARACK Ventilation

Infinity 1100

Infinity 2200

Introducing The Infinity Series In-Line Fan

Versatile and powerful, the Infinity In-line Fans can be used for exhaust, supply, or in the case of the Infinity 2200 – both. The Infinity can also be used for re-circulation strategies to move warm or cool air throughout a home.

- Used as a ducted whole house fan
- Used as a bathroom in-line exhaust fan
- Used as basement or hobby room exhaust fan
- Used as a re-circulation fan to move heat or AC around the home

There are two versions available:

The **Infinity 1100** is a single 10" In-line fan.

The **Infinity 2200** is a double 10" In-Line fan.

Specifications:

Airflow in CFM*:	Infinity 1100	Infinity 2200
Net free:	733	1614
.1" Static Pressure	584	1397
.2" Static Pressure	439	1176

Tested by Texas A&M Riverside EE Laboratory

Electrical:	115/120vac
Power:	The 1100 – 170w The 2200 – 340w
Dimensions:	The 1100 – 16" x 16" x 9" The 1100 – 30" x 17" x 9"
Duct Collar:	10" with a 3" flange
Construction:	20 gauge galvanized steel
Paint:	Powder coated finish – green
Controls:	Can be used with line voltage timers, thermostats, and humidistats
