

MUFFLER

ACOUSTIC PLENUM BOX

The **Muffler** is an insulated, raised frame plenum box. Engineered to raise select Tamarack brand Whole House Fans 12 inches off the attic floor joists, eliminating the need for joist cutting and reducing fan sound levels.

FEATURES

- Insulated, sound-absorbing frame
- Ideal for attics with blown-in insulation
- 20-gauge galvanized sheet metal construction
- Easy to install
- Maintenance-Free
- Fits 16" - 24" on-center joists | No joist-cutting required
- Compatible with five popular Tamarack brand whole house fan models:

HV1000R38, HV1000R50, HV1600R38, & HV1600R50

SHOWN WITH
HV1600R38
