

THE BATTIC DOOR R50 ATTIC STAIR COVER

These attic stair covers provide a cost effective and simple way to meet the following code requirements on your projects.

Applicable code references:

- 2015 and 2018 IRC Section N1102.2.4 (R402.2.4)
- 2015 and 2018 IECC Section R402.2.4

Each of these codes read as follows:

- "Access doors from conditioned spaces to unconditioned spaces (e.g. attics and crawl spaces) shall be weather-stripped and insulated to a level equivalent to the insulation on the surrounding surfaces."

Energy Star Version 3 requirements conforms with the 2015 and the 2018 IECC codes and the International Green Construction Code conforms to the 2015 and the 2018 IRC codes. This Battic Door Attic Stair Cover meets these requirements.

This cover is a high performance, energy efficient, economical, easy to install assembly.

- Use where pull down attic stairs are preferred
- Kit includes a rigid box to cover the stair, a foam gasket, a radiant barrier.
- R-50 fiberglass insulation insert is available or can be purchased locally.
- The Attic Stair Cover fits between trusses.
- Available in standard pull down stair sizes 22x54 and 25x54.
- Most cost effective, easiest to install attic stair cover on the market in addition to providing the highest insulation value available.
