

TAMARACK Ventilation

The Perfect Balance

PROBLEM: With the door closed to a bathroom, the exhaust fan often has a hard time moving air out. This can lead to mold and mildew build up.

SOLUTION: The Perfect Balance allows make-up air to enter, allowing moisture and pollutants to exit through the fan.

This patented design will help eliminate mold and mildew buildup in bathrooms and other moisture generating rooms in your home.

The Perfect Balance is The Make-Up Air Solution for:

- Bathrooms
- Laundry Rooms
- Mechanical Rooms
- Work and Hobby Rooms

Allow the fresh and dry air in while your fan is moving the stale and moist air out.

- Improves exhaust fan performance.
- Eliminates the need for jump ducts.
- Internal noise and light absorbing baffle included.
- Easy to install – template included.
- Fits 30" interior 1 3/8" doors.
- Product dimensions: 27 1/4" L x 4 3/4" H x 1 5/8" D.
- Available in singles, 3-packs and bulk packs.
- Special contractor bulk pricing available.
